Profile Waterjet Machine Operator / Labourer

Due to the continued growth in our operations, Cashcor Engineering are seeking an enthusiastic Profile Waterjet Machine Operator / Labourer to support our high performing engineering team. Cashcor Engineering has been operating in Cairns for 40 years and is a multi-faceted engineering business.

This position will place you within a well-known and highly regarded North Queensland Engineering and Manufacturing Company. You will be working amongst a highly supportive, fun and committed team dynamic and provided with a diverse work variety.

About the role: We are currently seeking a Profile Waterjet Machine Operator / Labourer to join our expanding and diverse business operations. No experience required as full onsite training will be provided.

Responsibilities include:

- Operating Profile Waterjet Machine;
- Interpreting Drawings;
- Opportunity to learn additional Machinery;
- You will be required to work within Cashcor's workshops and on site.

Benefits Include:

- Working within a growing and supportive team.
- Family friendly culture.
- Long term and stable employment.
- Full-time position.
- Start immediately.

Essential skills and attributes:

- A health and safety-focused approach to your work.
- Good Time management.
- Engineering / Fabrication background would be an advantage.

How to apply:

Please submit via email to cashcor@bigpond.net.au your covering letter and CV. Only shortlisted candidates will be contacted.

Submission close at 5pm, Friday, 11th September 2020.
